March 20, 2015

On March 19, 2015, a tragic event happened in Munroe Falls. Fortunately, this type of incident does not occur often in our city

It is at this time that the City would like to inform all residents that cell phones are not linked to a particular address and they may not connect to the correct dispatch center. This was the case in this event. The 911 call was received by the Stow Police Department and once the location of the call was determined, it was transferred to the Munroe Falls Dispatch Center.

The response time for a Munroe Falls Police Officer is typically one minute or less for 78 percent of all calls. If there is suspicious activity that concerns you at any time, please call 911. If you use a cell phone, be sure to state your address, remain on the phone, and stay in a safe place until the police arrive. Please do not put yourself in harm's way, stay safe and let the police handle the situation.

The Munroe Falls Police are trained to protect and serve our residents.

The full details of the event will be made available at the completion of the investigation.
