**For Immediate Release:**

**MUNROE FALLS SELECTS CONSTELLATION TO PROVIDE NEW LOW FIXED RATE FOR NATURAL GAS AGGREGATION PROGRAM**

**Munroe Falls, Ohio (February xx, 2018)** – City of Munroe Falls officials would like to announce that they have again chosen Constellation as the supplier for the City’s Natural Gas Aggregation Program. Constellation won a competitive proposal process and will continue to serve Munroe Falls’ program through March 2020. The City has set a rate of \$3.247/Mcf for gas consumed April 2018 through March 2019. Residents and small businesses should look for a letter from Constellation to arrive around February 22<sup>nd</sup> explaining the new rate and the various means to join the program.

Mayor James Armstrong said, "We are pleased to have been able to secure this low rate for our residents and businesses. This rate provides price protection for an entire year and gives customers the ability to opt-out free of charge at any time for any reason."

Anyone currently enrolled in the program, or those who have yet to choose a supplier, will receive an opt-out notice from Constellation explaining the rate, terms and conditions, and methods for opting out of the City’s aggregation program. These accounts will be added to the program unless they opt out as indicated in the letter.

Customers served by another supplier will also receive a letter from Constellation inviting them to join the program. These customers must contact Constellation in order to join the program and can do so by returning a business reply card, calling Constellation toll-free at 844-516-5248, or visiting <http://www.constellation.com/oh-munroefalls>. These customers should be aware of the obligations in their existing contract before joining the City of Munroe Falls program, as many suppliers charge a penalty for early termination. Customers wishing to join the program must be in good standing with their bill payment and cannot be part of the utility’s percentage of income payment program (PIPP).

"Constellation is proud to continue to provide residents and small businesses in the City of Munroe Falls with price certainty and the same effortless experience we offer all customers," said Kevin Klages, senior vice president, Mass Markets, for Constellation. "As a national leading competitive energy supplier with deep roots in serving Ohio customers, we look forward to supplying natural gas to Munroe Falls’ residents and small businesses."

The City of Munroe Falls is pleased to have made this program possible but asks that you do not call the City offices, which are not equipped to handle a large volume of calls. City officials ask that residents contact Constellation directly at 844-516-5248 with questions about the program.
