Total											

If the usage depicted on your water bills is typically *lower* than the usage figure here, try re-evaluating the numbers you have entered into this formulary. It is possible that any given number of gallons used for a specific task is less at your home than the number(s) listed. The numbers given here are strictly *averages*.

If the usage depicted on your water bills is typically *higher* than the figure you have entered into this formulary this may be an indication of an unknown water leak. Please contact the Water Department immediately.
