**For Immediate Release:**

**MUNROE FALLS ANNOUNCES NEW  
FIXED RATE FOR NATURAL GAS AGGREGATION PROGRAM**

**Munroe Falls, Ohio (March 1, 2024)** – City officials are pleased to announce that they have established a 24-month fixed-rate of \$3.933 per Mcf for natural gas for program members. The new rate will run through March 2026. Residents and small commercial customers can expect a letter from Constellation to arrive on the week of March 11th. The letter will explain the rate, terms and conditions of the offer. The natural gas program was approved by voters in November 2001 and is available for residents and small businesses in the City.

We are pleased to make this rate available for our residents and small businesses. The fixed-rate will give them price protection and budget stability for the next term. As before, our program has no early termination fee.

Eric Burns, Director of Aggregation of Independent Energy Consultants, said, “Residents and businesses should carefully read their letter from Constellation. Residents who are currently participating in the program will receive an “opt-out” letter, and do not need to take any action to remain in the program. Residents who have not chosen a supplier and receive their gas supply from Dominion Energy Ohio will also receive an “opt-out” letter. If they wish to be added to the program, they should simply do nothing, and they will automatically receive the new rate.”

We would like to remind you that the aggregation program is simply another option for you to consider, and it is important that you make yourself aware of the other options available to you, specifically:

- The Public Utility Commission of Ohio provides a list of other publicly available offers on their website, [www.energychoice.ohio.gov](http://www.energychoice.ohio.gov). Anyone considering those supply offers should be aware of any early termination penalties, fixed monthly charges, or automatic renewal provisions that can quickly offset any perceived savings. Our program includes none of the above.
- The utility’s supply rate the Standard Choice Offer (SCO) is a variable rate option. It follows monthly market conditions and trends up and down throughout the year.

Again, we would like to remind people that the program is simply another option for our residents and small businesses to consider in their efforts to manage their energy costs.

The City is pleased to have made this program possible but asks that you do not call the City offices, which are not equipped to handle a large volume of calls. **Residents should contact Constellation at 844-516-5248 if they have any questions.**
